

# Association of Pharmacy Technicians UK

## Diamond Jubilee Year 2012

Celebrating 60 years to support pharmacy technicians achieve diamond standard.

2012 is set to be an exciting year as the Association of Pharmacy Technicians UK celebrates its Diamond Jubilee.

APTUK would like to thank all of its members - past and present - for their valued and continued support. We look forward to welcoming you all to our special Diamond Jubilee conference. It will be held at the NEC in Birmingham on Saturday 29<sup>th</sup> and Sunday 30<sup>th</sup> of September 2012.

It promises to be a true celebration of the excellent work by Pharmacy Technicians across all sectors in the UK who optimise the use of medicines and provide exemplary patient care.

It will also be an opportune time to remember our founder Katherine Miles who we are sure will be celebrating us reaching this milestone and achieving so many successes.

More details of our Diamond Jubilee Conference will shortly appear on the website, but for now many congratulations to APTUK and all of our members in this very special year.
