

Association of Pharmacy Technicians UK

The Professional Leadership body for Pharmacy Technicians

The APTUK Foundation Pharmacy Framework is a Framework for professional development in pharmacy practice at foundation level.

The **APTUK Foundation Pharmacy Framework (FPF)** is comprised of the following components or clusters:

1. Patient and Pharmaceutical Care
2. Professional Practice
3. Personal Practice
4. Management & Organisation

The framework can support your

- career development
- enhance your skills
- be a tool to provide evidence of your competence, knowledge and skill
- support you with a change in practice/return to work

Members have full access to the framework, and exclusive support from our education team and FPF champions.

Leading pharmacy technicians to deliver professional excellence for patient centred care.

Our 5 commitments to members:

1. Influence change for the advancement and safeguarding of the pharmacy technician profession
2. Represent the opinions of our members and respond to the professional needs of pharmacy technicians
3. Provide developmental support for the delivery of patient centred professionalism
4. Actively pursue the sharing of knowledge and experience through professional networking and collaborative working
5. Promote the pharmacy technician profession, foundation and advanced roles, within the pharmacy team, to shape its future development.

www.aptuk.org
