Please use for all correspondence from now on

Reminders

Please send the following to Kate or me

- Meeting minutes
- Updated committee members
- AGM notes
- End of year finances
- Meeting dates

Swindon branch meeting took place on Wednesday 5th October 2016.

No changes to the committee members.

Since having to introduce attendance charges as it has become much more difficult to find sponsorship I am pleased to say it has not impacted on the numbers.

The group especially value the opportunity to be able to network with others from different sectors of pharmacy.

We had 24 attendees on the evening with 2 last minute apologies which would have made the numbers higher still.

Excellent attendance with a mix of hospital and community technicians, hospital pre-registration technicians and community Dispensers.

The theme of the evening was BLADDER WEAKNESS AND INCONTINENCE.

The objective of the meeting was to have an understanding of how a healthy bladder works be familiar with different types of bladder weakness and their causes. Be able to suggest lifestyle measures which can help sufferers cope with their condition.

The meeting was supported by a facilitator who gave a brilliant lively and informative presentation.

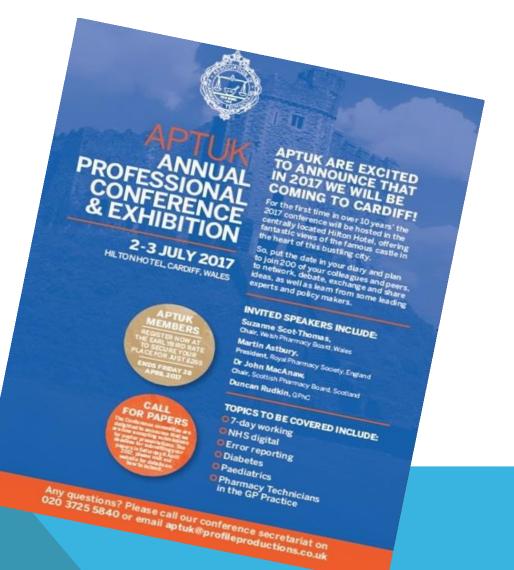

At the end of the meeting we were all given bladder weakness pharmacy resource packs to contribute towards our CPD and certificates from the facilitator as well as APTUK certificates of attendance.

The final part of the evening allowed me to update all present on current APTUK news.

I spoke about new membership fees and how those that pay by standing order must instruct their bank accordingly.

Encouraged those who are not members to join listing all the benefits. Lam desperately trying to

Tips on Presenting and Introducing Speakers at Branch Meetings

Tips on Presenting

Audiences like the presenter to:

- •Be enthusiastic about the topic
- •Be professional and confident
- Use well designed visuals
- •Build rapport with them

Audiences don't like the presenter to:

- •Look at or read from the screen
- Speak too fast
- Draw attention to any mistakes
- •Be boring

Tips on designing a Presentation

Prepare topic:

Research

Write notes

Pick out interesting facts

Use own experiences

Design:

Check you can pronounce words

Make sure there is nothing embarrassing

Practice at home

Be yourself – your own style

Make note cards

Deliver:

Breathe deeply to relax

Speak slowly

Vary tone of voice

Use hand gestures

Remove physical barriers

If a mistake is make carry

on

Tips on Introducing a Guest Speaker

- Introduce yourself
- Explain what the topic is
- Explain who the speaker is and their credentials,
 achievements and interests linked to the topic / APTUK
- Welcome the speaker to the front/stage

Preparation is Key

Learn about the speaker and their connection to the topic

Learn a little about the topic

Ask the speaker some questions about themselves before hand to

use in your introduction

Practice saying their name correctly and naturally

Pharmacy Technician & Drug Administration – Design Workshop

- Review current models currently in practice
- Understand the need for a standardised approach
- Explore content for a potential learning program.
- Discuss potential methods of delivery and assessment.

Drivers

- Lord Carters Report
- STPs

Background

Nurses

HCA

Associate Nurse

What's out there already:

- BCH project
- Walsall
- Cheshire
- North Lincolnshire

Why CPPE involvement?

Need a minimum standard to ensure quality

Needs robust QA of assessment

Needs on-going program maintenance

How might we structure the learning?

Health and Social Care Level 3 NVQ unit:

Legislation and recording

Action and uses of medicines

Preparation (calculations, covert/missed/self administration)

Administration Techniques

Monitoring

FORMAT?

Hybrid of existing models

E-learning

E-assessment

Work based competency

Reflective log

CPPE sign off

Advantages of this new role?

What topics need to be included?
